Looking for childcare in the heart of Utrecht?

Loofles Ellimo is a small-scale daycare centre where your child can play, explore and feel right at home. At Loofles Ellimo, we offer a safe, nurturing and stimulating environment for children aged 0 to 4.

Our professional team works with the Uk & Puk method, using playful themes to help children develop language skills, motor abilities and social confidence, all in a way that fits their world.

We welcome many children from international families and understand what it means to move to a new country. That's why we value close communication with parents and take extra care to make both children and families feel welcome and supported.
